

Call for Abstracts!

Share Your Science. Shape the Future of Transplantation.

The Transplantation Society (TTS) invites the global transplantation community to submit abstracts for presentation at TTS 2026, the premier international forum for transplantation science, medicine, and innovation.

TTS 2026 will bring together world leaders, early-career investigators, and multidisciplinary professionals to exchange knowledge, foster collaboration, and advance transplantation outcomes worldwide.

Submitting an abstract may qualify you for prestigious TTS awards designed to recognize excellence and support participation in the Congress.

Key Dates

Abstract

Submission Deadline:

March 19, 2026
(23:59 EST)

Acceptance Notification:

June 08, 2026

Presenter

Registration Deadline:

June 23, 2026

Abstract Submission

Up to 1,000 oral presentation opportunities

Abstracts must be submitted online via the official TTS 2026 abstract portal.

Full submission instructions, categories, policies, and requirements:
www.tts2026.org/program/call-for-abstracts

Accepted abstracts by a presenter registered to attend the congress will be published in an online supplement of the *Transplantation Journal*.

Why You Should Attend

- Present original research to an international transplantation audience
- Engage with global experts across basic, translational, and clinical science
- Foster collaboration across disciplines, regions, and career stages
- Explore emerging science and innovations shaping transplantation practice

Who Should Attend

TTS 2026 welcomes professionals from across the transplantation ecosystem, including:

- Basic, translational, and clinical transplantation scientists
- Transplant physicians, surgeons, and clinical investigators
- Allied health professionals involved in transplantation care and research
- Trainees, fellows, residents, and early-career investigators
- Researchers and professionals engaged in data science, digital health, and innovation
- Individuals involved in transplantation policy, systems, and equity research

Awards & Recognition Opportunities

Congress Scientific Awards

Award application deadline:

April 25, 2026

These awards help offset the cost of attending TTS 2026 and recognize outstanding scientific contributions.

Eligibility highlights:

- Submission of at least one abstract as **presenting author**
- Applicant must be a **trainee, fellow, PhD student, allied health professional, or a resident of an emerging economy**
- **TTS membership required**
(non-members may apply for membership)

More awards information:

[www.tts2026.org/program/awards/
tts-scientific-congress-awards](http://www.tts2026.org/program/awards/tts-scientific-congress-awards)

Up to \$40,000 in award funding available to support participation and recognize scientific excellence

International Basic & Translational Science Mentee-Mentor Awards

Application deadline:

April 27, 2026

These awards recognize **outstanding achievements in basic and translational transplantation science, as well as exceptional mentorship**. In collaboration with national and international societies, TTS recognizes the contributions of basic and translational research to advancing the field of transplantation.

Eligibility highlights:

- **Mentee:** graduate student or post-doctoral trainee (within 5 years of degree)
- **Mentor:** established basic scientist
- Both must be **active members of TTS and the selected supported society**
- Both must be authors on the **same accepted abstract**
- Awards presented during a dedicated Congress event
